For Council Consideration

Council should consider providing direction on the Juneteenth Holiday.

Background

As of a few weeks ago, the State appeared likely to pass Juneteenth as an official holiday where no public business could be conducted effective this coming June 19th (originally slated to be effective next year). Assuming this goes through, Council would have had a worksession on this day but will need to reschedule to June 20th. Assuming the State passes this legislation, Staff will move forward accordingly (if the State does not pass anything we'll make the necessary changes for next year). PTRC also would meet on June 20th, but may want to reschedule to have Council Liaison availability.
