

MEMORANDUM

---

**DATE:** May 22, 2023

**TO:** Honorable Mayor and City Councilmembers  
Dave Perrault, City Administrator

**FROM:** David Swearingen, P.E. Public Works Director / City Engineer  
Jeff Frid, Public Works Superintendent

**SUBJECT:** Asset 85321 Vac-Truck Pump Repair

Budgeted Amount:	Actual Amount:	Funding Source:
\$28,500	\$11,865.90	Water, Sanitary Sewer, Storm Sewer Fund

---

**Council Should Consider**

Motions to approve, table, or deny the following:

- Purchase of parts and labor to repair the high-pressure water pump of Asset 85321 Vac-Truck in the amount of \$11,865.90

**Background/Discussion**

During the annual service and inspection completed by Ramsey County Fleet, it was discovered that the high-pressure water pump has shown signs of cavitation (used to clean sewer lines), and has a cylinder failure that requires parts replacement. The parts total is \$10,915.90 and labor to install the parts is \$950. This is a critical piece of equipment and required for day to day operations. City Staff recommends ordering the parts as soon as possible to minimize equipment down time.

**Budget Impact**

Asset 85321 is utilized on maintenance activities for Water, Sanitary Sewer and Storm Sewer. The purchase of the replacement parts will be covered between those utilities accordingly.
