

September 30, 2019

City of Arden Hills
1245 W Highway 96
Arden Hills, MN 55112

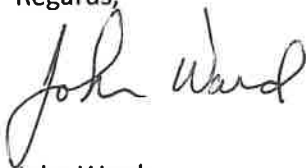

Council Members:

Mounds View Public Schools is providing the following response with regards to the future use of 1901 Lake Valentine Road.

- From now until Oct. 2020 the property at 1901 Lake Valentine Road will house our weight room and act as a cold storage facility for the school district.
- No vehicles will park inside the facility during this time frame.
- If completion of the new weight room is completed prior to October 2020 – we will move all equipment and students back to campus.
- Future usage may include:
 - Cold storage
 - Vehicle maintenance and storage
 - Lawn equipment
 - Snow equipment
- Exterior of the building:
 - As the building and grounds deteriorates, the district will identify and prioritize the needs within the district's long-term facility plan.
 - The district utilizes Long Term Facility Maintenance Revenue (LTFM) to provide the resources necessary to address all deteriorating building and grounds.
 - This funding and expenditures are guided by the Minnesota Department of Education (MDE) and Minnesota statutes and will be followed by the District as facility needs arise.

If you have any questions please reach out to myself or Mike Schwartz at the high school.

Regards,

John Ward

Assistant Superintendent
Human Resources and Operations
