

ARDEN HILLS
MEMORANDUM

DATE: November 19, 2019

TO: Parks, Trails and Recreation Committee

FROM: Sara Knoll, Parks and Recreation Coordinator

SUBJECT: Arden Hills Trail Priorities

Background

The City Council has asked the Parks, Trails and Recreation Committee to prioritize a list of the trail connections in Arden Hills. Planning urban pathways with other city and regional planning efforts can better integrate pathways into the city's transportation and greenspace network, providing more opportunities for active transportation and recreation.

Trails are an important part of providing multi-modal transportation options. They allow residents to access close-to-home recreation opportunities and provide off-street connections between neighborhoods, schools, parks and local businesses. They provide active transportation that improves community health, creates livable neighborhoods and allows people of all ages and abilities to get outside and get moving.

Action Requested

Please look over the trail priorities that were discussed at the last PTRC Meeting. If there is anything that was missed or needs to be addressed please bring it forward at the November meeting.
