

MEMORANDUM

DATE: November 20, 2019

TO: Honorable Mayor and City Councilmembers
Dave Perrault, City Administrator

FROM: Mike Mrosla, Community Development Manager/City Planner

SUBJECT: MVHS Traffic Study Discussion

Budgeted Amount:
NA

Actual Amount:
NA

Funding Source:
NA

Background/Discussion

At their September 23, 2019 meeting, the City Council approved WSB’s professional services agreement to study school related traffic on Lake Valentine Road adjacent to Mounds View High School. At that meeting, the City Council requested a meeting with WSB to provide input prior to compiling the information and making a formal recommendation. WSB has completed its initial data collection and will be presenting the following information to Council:

- Background of the study
- Our data collection efforts
- Findings from our data and field observation
- Issues and constraints
- Potential opportunities (alternatives) for improving the circulation and safety

Process

This meeting, as requested by Council, is intended to be an initial discussion and allow for the Council to provide input prior to WSB completing the study and making a recommendation. Following the workshop discussion, WSB will then study and review potential opportunities (alternatives) taking into account the City Council feedback. WSB will then select the most feasible alternative and make a formal recommendation to the City Council for approval.

Budget Impact
