

STATE OF MINNESOTA
COUNTY OF RAMSEY
CITY OF ARDEN HILLS

Resolution No. 85-22

REQUEST FOR LAKE RECLASSIFICATION AND
MODIFICATION TO SHORELAND MANAGEMENT
REQUIREMENTS

WHEREAS, the Department of Natural Resources (DNR) has evaluated the lakes in Arden Hills and assigned preliminary classifications; and

WHEREAS, the DNR has requested the City of Arden Hills (CITY) to review and respond to these classifications and the development controls which accompany them; and

WHEREAS, the City has completed such a review and has determined that certain classifications and the accompanying development controls do not coincide with the City's evaluation of existing and future shoreland development; and

WHEREAS, the City believes that the intent of the shoreland management requirements can be accomplished within the community, even if certain development controls are modified to reduce the administrative complexity, the number of non-conformities created on existing development, and the potential adverse effect upon undeveloped parcels;

NOW, THEREFORE, BE IT RESOLVED that the City of Arden Hills submits documentation in support of and requests DNR approval of certain modifications to the lake classifications and shoreland development controls, as contained in the attached document.

Passed by the Arden Hills Council this 13th day of May, 1985.

Robert L. Woodburn
Mayor
