

MEMORANDUM

DATE: March 21, 2022

TO: Honorable Mayor and City Councilmembers
Dave Perrault, City Administrator

FROM: David Swearingen, P.E. Public Works Director / City Engineer

SUBJECT: County Road E and Old Snelling Ave Intersection Improvements

Budgeted Amount:	Actual Amount:	Funding Source:
\$	\$	

Council Should Consider

Council should consider discussing the results of the open-house and public survey for the intersection of County Rd E and Old Snelling Ave and provide direction for design alternatives. A formal approval of a design alternative would be brought forward at a later Regular Meeting in the form of a Cooperative and Maintenance Agreement with Ramsey County.

Background/ Discussion

Attachment A is the summary of the Public Engagement Survey for the County Rd E and Old Snelling Ave intersection provided by the County’s engineering consultant SRF.

Council recently reviewed the latest Intersection Control Evaluation Report that analyzed 3 different design alternatives and determines a recommendation for a long-term preferred improvement. The report concludes that a roundabout is the optimum form of traffic control at this location.

Improvements to this intersection are scheduled for 2023, in order to keep this project moving along per schedule, it is important to have clear direction from City Council on the design.
