**Background**

In 2021, the City Council requested the Parks, Trails and Recreation Committee (PTRC) develop a workplan for discussion and feedback. Following discussion by the PTRC, the committee is prepared to discuss their goals and priorities for 2022. The Council will make the final determination as to what the goals and priorities are for the upcoming year. The joint meeting will be an opportunity for the PTRC to present their goals, priorities, discuss current issues, and receive Council feedback.

Following this discussion, Staff will bring back a discussion to Council on the direction of Recreation Programming and the variety and depth of programming the Council would like to offer.

**Discussion**

The PTRC will be presenting their work plan in more detail with a PowerPoint slide show at the meeting.
