Re: Proposal for 2023 Oak Injections

Dear Mr. Miller:

I am writing to inform you of Rainbow Treecare's proposal for discounted injections of public oak trees to protect against Two Lined Chestnut Borer in the City of Arden Hills.

Rainbow Treecare will utilize a liquid formulation of 4% Emamectin benzoate to provide two years of protection against Two Lined Chestnut Borer via a trunk injection. Rainbow Treecare understands that quantity of trees available for treatment will be determined by the City of Arden Hills. All technicians assigned to this project will be drawn from Rainbow Treecare's staff and will be licensed commercial pesticide applicators in the State of Minnesota.

The cost for this project will be as follows:

- \$5.15 per diameter inch— City property oak tree injection service with Emamectin benzoate initiated by City staff

City of Arden Hills
