Program Background

On June 8, 2009, the City of Arden Hills adopted an ordinance requiring property owners who rent property with fewer than five dwelling units to register with the City on an annual basis.

The purpose of this rental registration program is three-fold:

1. To track rental trends throughout the city.
2. To distribute educational information on city regulations and other information important for rental properties to tenants and property owners.
3. To maintain current contact information for the owners of rental properties.

The registration program will help to ensure that rental property in the City is properly maintained to the standards required for all residential properties.
