

Garbage Can and Recycling Bin Storage for Residential Properties

Section 660.05

- Containers shall be stored within an enclosed building, or in the side or rear yard adjacent to a structure. Containers shall not be stored in the front yard forward of the principal structure. For properties adjacent to more than one public street, the side of the property with driveway access to the public street shall be deemed the front yard.
- Containers shall not be stored closer to the principal building of an adjoining lot than to the principal building on the lot where they are stored.
- All containers shall be washed and treated with a disinfectant as often as necessary to prevent a nuisance.
- Containers shall be kept in a tidy and orderly manner, with lids closed, and all refuse stored within.
