

## **Metro - I-35W between Roseville and Lino Lakes: 2019-2021 Construction**

---

### **Southbound I-35W ramps to/from Co. Rd. E2 reopen Oct. 10**

Good news! We're close to finishing up work on the southbound I-35W ramps to/from Co. Rd. E2. We anticipate the ramps reopening by 11 p.m. on Thu, Oct. 10.

### **Southbound I-35W traffic shift Oct. 13**

With construction season winding down, we will be working over the next month to get southbound and northbound I-35W traffic back to its original configuration in time for winter. Overnight on Sun, Oct. 13, we'll start shifting southbound I-35W traffic to the newly paved southbound lanes, weather permitting. Drivers should expect overnight lane closures on the northern end of the project as we move the concrete barriers and shift the southbound I-35W traffic between Lake Dr. and Sunset Ave. onto to the new southbound lanes.

Drivers should anticipate a few more southbound I-35W traffic shifts to occur in the next several weeks. By mid-November, all southbound I-35W traffic will return to the new southbound lanes and northbound traffic will be shifted back to its original location.

### **Southbound I-35W ramp to Co. Rd. C reopens Oct. 14**

Some more good news! We're also close to finishing up work on the southbound I-35W ramp to Co. Rd. C. We anticipate reopening the ramp the evening of Mon, Oct. 14. The Long Lake Rd./Co. Rd. C ramp to southbound I-35W is expected to reopen by the end of October.

## Southbound I-35W ramp to Co. Rd. D closes Oct. 15

As we continue paving the final stretch of southbound I-35W, we have a few more ramps to close. Beginning at 5 a.m. Tue, Oct. 15, we'll be closing the southbound I-35W ramp to Co. Rd. D. The ramp is expected to remain closed through mid-November. Drivers should follow the posted detour during the closure by [exiting at Co. Rd. 88 to Co. Rd. D](#).

Later this month, the Co. Rd. D ramp to southbound I-35W will also close. Additional details will be provided in the coming week.

### More about this project

The I-35W North MnPASS project is a three-year reconstruction project that will repair aging infrastructure and improve mobility on I-35W between Roseville and Lino Lakes.

Watch a [video](#) to get an overview on the project schedule and traffic impacts.

To learn more, including all upcoming traffic impacts, visit the project website at: [mndot.gov/metro/projects/35wnorthmnpass](http://mndot.gov/metro/projects/35wnorthmnpass).
