INTRODUCTORY SECTION

April 21, 2022

To the Honorable Mayor, Members of the City Council,
and Citizens of the City of Arden Hills, Minnesota

State law requires that every general-purpose local government publish a complete set of audited financial statements. This report is published to fulfill that requirement for the fiscal year ended December 31, 2021.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements.

Malloy, Montague, Karnowski, Radosevich & Co., P.A. (MMKR), Certified Public Accountants, have issued an unmodified (“clean”) opinion on the City of Arden Hills, Minnesota’s (the City) financial statements for the year ended December 31, 2021. The independent auditor’s report is located at the front of the financial section of this report.

The management’s discussion and analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF THE GOVERNMENT

The City, incorporated in 1951, is a northern suburb of the Minneapolis/St. Paul metropolitan area, situated in Ramsey County. The City occupies 9.65 square miles and serves an estimated population of 10,038. The City is empowered to levy a property tax on both real and personal property located within its boundaries.

The City operates under the “Optional Plan A” form of government as defined in Minnesota Statutes. Under this plan, the government of the City is directed by a City Council composed of an elected mayor and four elected councilmembers. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City. Councilmembers serve four-year terms, with two members elected every two years. The mayor is elected for a four-year term. The mayor and members of the City Council are elected at large.

The City provides a full range of services: the construction and maintenance of streets and other infrastructure; recreational and cultural activities; water, sewer, surface water management, and recycling systems; community development, building inspection, and planning; and general government operations, including administration, finance/accounting, community information (newsletter), and general government buildings. The City contracts with Ramsey County for police services, Lake Johanna Fire Department for fire services, and Metro-INET for information services.

The City Council is required to adopt a final budget by late December for the subsequent year. The budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Transfers of appropriations between funds require the approval of the City Council. The legal level of budgetary control is the fund level. Budgeted amounts may be amended by the City Council. Governmental funds with annually adopted budgets include the General Fund and most special revenue funds. A budget was not legally adopted for the two special revenue funds established for specific short-term projects: Karth Lake Improvement District and American Rescue Plan Act funds.

The City's capital improvement program (covering five years), the pavement management plan (covering five years), and the Twin Cities Army Ammunition Plant (TCAAP) development plan, along with the annual budget, serve as the foundation for the City's financial planning, and the annual budget serves as the budget control.

LOCAL ECONOMY

A number of high-profile leaders in the medical, technology, and business sectors, including Boston Scientific, Land O'Lakes, Intricon, Gradient Financial, International Paper, Delkor, and Presbyterian Homes, are located within the City. These leaders of industry provide high-paying jobs to skilled employees, which in turn creates a strong base for economic diversity, quality housing, and an involved citizenry.

Because of its location in a region with a varied economic base, unemployment is relatively stable. During the past 10 years, the unemployment rate has fluctuated from a high of 6.5 percent in 2020, to a low of 2.7 percent in 2018. The current rate is 4.0 percent.

During the past 10 years, property taxes have remained a stable and significant source of total General Fund and special revenue fund revenues. Intergovernmental makes up approximately 2.7 percent of total revenues in the General Fund and special revenue funds for the current fiscal year.

LONG-TERM FINANCIAL PLANNING

The unassigned General Fund balance of \$2,899,564 (55.3 percent of total subsequent year General Fund expenditures budgeted) meets the 50.0 percent target set by the City Council for budgetary and planning purposes. The total General Fund balance also includes \$31,152 of nonspendable equity for prepaid items, \$99,096 of assigned equity for compensated absences, and \$140,000 assigned equity for the subsequent year's budget.

The City's five-year capital improvement program and pavement management plan serve as the foundation for the City's long-term financial planning. To ensure the timely replacement of infrastructure, the City prepares long-term cost projections for the replacement of all city assets. Funding needs for capital replacements are reflected in tax levies and special assessments for capital assets, and are reflected in user fees established for the Water, Sewer, Surface Water Management, and Recycling Funds.

Projections for the next 10 years indicate that property tax contributions, user fees, and investment income will need to be reevaluated to support scheduled replacements. In 2012, the City entered into a Joint Powers Agreement with Ramsey County to form a Joint Development Authority (JDA) to acquire and develop a portion of the Army property, formerly known as TCAAP. The county officially acquired this property April 15, 2013, and has cleaned it to residential standards. The City completed the TCAAP Redevelopment Code (TRC) in late 2016, which guides the land use on the site. In 2019, the County brought litigation against the City; however, that litigation was resolved in 2021 in the City's favor. The land remains shovel ready, pending future development agreements; any future development on the site is expected to add to the City's tax base and could include commercial/industrial, residential, and civic uses. The site is approximately 430 acres.

RELEVANT FINANCIAL POLICIES

The City utilizes various financial and budget policies to guide the City Council and staff when making financial decisions. The primary objective of these policies is to guarantee effective delivery of city services to residents and businesses, and to ensure protection of the City's financial strength and flexibility through a revenue structure and long-term planning effort that is consistent with City Council goals and working capital targets. The City uses a conservative approach in making ongoing revenue assumptions by utilizing growth patterns and knowledge of the developing areas. As part of the annual budget process, the City reviews its financial and budget policies. There have been no significant changes to these policies from the previous year.

MAJOR INITIATIVES

The largest initiative on the City's horizon is the TCAAP project, as previously mentioned. This project is a joint effort between the City, Ramsey County, and a master developer. When completed, this project will represent almost a 40 percent population increase to the City, as well as a significant increase to the commercial and industrial sectors. City representatives are working hard to ensure the development is a long-term, sustainable project that adds to the City's diverse residents, businesses, and open space without burdening the existing city taxpayer. The TCAAP project is expected to be a destination site for the region and serve as a model for future developments.

ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Annual Comprehensive Financial Report (ACFR) for the fiscal year ended December 31, 2020. This is the 15th year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City had to publish an easily readable and efficiently organized ACFR that satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current ACFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated service of the entire staff of the finance department, and through the helpful guidance and assistance from our auditing firm, MMKR. We wish to express our appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit also must be given to the mayor and City Council for their unfailing support in maintaining the highest standards of professionalism in the management of the City's finances.

Respectfully submitted,

INDEPENDENT AUDITOR'S REPORT

To the City Council and Management
City of Arden Hills, Minnesota

OPINIONS

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Arden Hills, Minnesota (the City) as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

BASIS FOR OPINIONS

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

RESPONSIBILITIES OF MANAGEMENT FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern within 12 months beyond the financial statements date, including any currently known information that may raise substantial doubt shortly thereafter.

(continued)

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance, but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information (RSI), as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

(continued)

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules, as listed in the table of contents, are presented for the purpose of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

OTHER REPORTING REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 21, 2022, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Malloy, Montague, Karnowski, Radosevich & Co., P. A.

CITY OF ARDEN HILLS

Management's Discussion and Analysis Year Ended December 31, 2021

As the management of the City of Arden Hills, Minnesota (the City), we offer readers of the City's Annual Comprehensive Financial Report (ACFR) this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2021. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which is presented in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the City exceeded liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$61,789,568 (*net position*). Of this amount, \$14,720,973 (*unrestricted net position*) may be used to meet the City's ongoing obligations to citizens and creditors.
- The City's total net position increased by \$3,450,101 in 2021.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$10,814,728. Of this total amount, \$35,030 is nonspendable and \$1,220,287 is restricted, leaving an unrestricted (committed, assigned, and unassigned) balance of \$9,559,411.
- At the end of the current fiscal year, the General Fund has a total fund balance of \$3,169,812. At December 31, 2021, the unassigned fund balance of the General Fund was \$2,899,564, or 55.3 percent, of the subsequent year's budgeted expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements – The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private sector business.

The Statement of Net Position presents information on all of the City's assets, liabilities, and deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, public works, parks and recreation, and economic development. The business-type activities of the City include water, sewer, surface water management, and recycling.

The government-wide financial statements can be found in the financial section following this report.

Fund Financial Statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a city's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City reports two individual major governmental funds. Information is presented separately in the governmental funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and Permanent Improvement Revolving Fund, which are considered to be major funds.

Data from all other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its General Fund and most special revenue funds. A budgetary comparison schedule has been provided for these funds to demonstrate compliance with the budget.

The basic governmental funds financial statements can be found in the financial section of this report immediately following the government-wide financial statements.

Proprietary Funds – The City maintains two different types of proprietary funds. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water, sewer, surface water management, and recycling operations. Water, sewer, and surface water management are considered to be major funds of the City.

Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City maintains internal service funds for risk management, engineering, central garage, and technology. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

The proprietary funds financial statements can be found in the financial section of this report immediately following the governmental funds statements.

Notes to Basic Financial Statements – The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found following the proprietary funds statements within the financial section of this report.

Other Information – In addition to the basic financial statements and accompanying notes, the financial section also presents required supplementary information, and the combining and individual fund statements and schedules (presented as supplemental information) referred to earlier in connection with nonmajor governmental funds and internal service funds, which are presented immediately following the basic financial statements.

Further, a statistical section has been included as part of the ACFR to facilitate additional analysis, and is the third and final section of the report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

An analysis of the City's financial position begins with a review of the Statement of Net Position and the Statement of Activities. These two statements report the City's net position and changes in net position. It should be noted that the financial position can also be affected by nonfinancial factors, including economic conditions, population growth, and new regulations.

As noted earlier, net position may serve over time as a useful indicator of the City's financial position. As presented in the following condensed version of the Statement of Net Position, the City's assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$61,789,568 at December 31, 2021.

The largest portion of the City's net position, \$45,848,294, or 74.2 percent, reflects its net investment in capital assets (e.g., land, construction in progress, buildings and structures, infrastructure and improvements, distribution and collection systems, machinery and equipment, office furniture and equipment, and vehicles) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources; since the capital assets themselves cannot be used to liquidate these liabilities.

The following table provides the City's Summary of Net Position:

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
Assets						
Current and other assets	\$ 16,693,237	\$ 15,458,034	\$ 4,822,482	\$ 3,831,773	\$ 21,515,719	\$ 19,289,807

Restricted	1,220,301	1,137,740	–	–	1,220,301	1,137,740
Unrestricted	10,799,339	10,534,206	3,921,634	3,000,493	14,720,973	13,534,699
Total net position	<u>\$ 39,494,599</u>	<u>\$ 38,090,012</u>	<u>\$ 22,294,969</u>	<u>\$ 20,249,455</u>	<u>\$ 61,789,568</u>	<u>\$ 58,339,467</u>

Restricted net position of \$1,220,301 comprises 2.0 percent of net position at the close of the fiscal year ended December 31, 2021. These assets are subject to external restrictions on how they may be used.

The balance of unrestricted net position, \$14,720,973, or approximately 23.8 percent, may be used to meet the City's ongoing obligations to citizens and creditors. Certain balances within unrestricted net position may have internally imposed commitments or limitations, which may further limit the purpose for which such net position may be used.

At the end of the current fiscal year, the City is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Both governmental activities and business-type activities experienced changes in deferred outflows of resources, deferred inflows of resources, and long-term liabilities as a result of the City's participation in a state-wide defined benefit pension plan. The City reported an increase in current and other assets and other liabilities with receipt of cash for developer deposits held at year-end.

The following table provides a condensed version of the Statement of Activities for the year ended December 31, 2021, with comparative amounts for the year ended December 31, 2020:

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
Revenues

Transfers	300,000	237,000	(300,000)	(237,000)	–	–
Increase in net position	1,404,587	934,070	2,045,514	771,506	3,450,101	1,705,576
Net position – beginning	38,090,012	37,155,942	20,249,455	19,477,949	58,339,467	56,633,891
Net position – ending	<u>\$ 39,494,599</u>	<u>\$ 38,090,012</u>	<u>\$ 22,294,969</u>	<u>\$ 20,249,455</u>	<u>\$ 61,789,568</u>	<u>\$ 58,339,467</u>

Governmental Activities – Current year operating results of governmental activities increased net position by \$1,404,587, compared to an increase of \$934,070 in the prior year. Revenues were up in the current year with more development activity contributing to the change in charges for services and more capital grants and contributions from capital-related assessments. The City recognized less unrestricted grants and contributions with one-time coronavirus relief funds recognized last year.

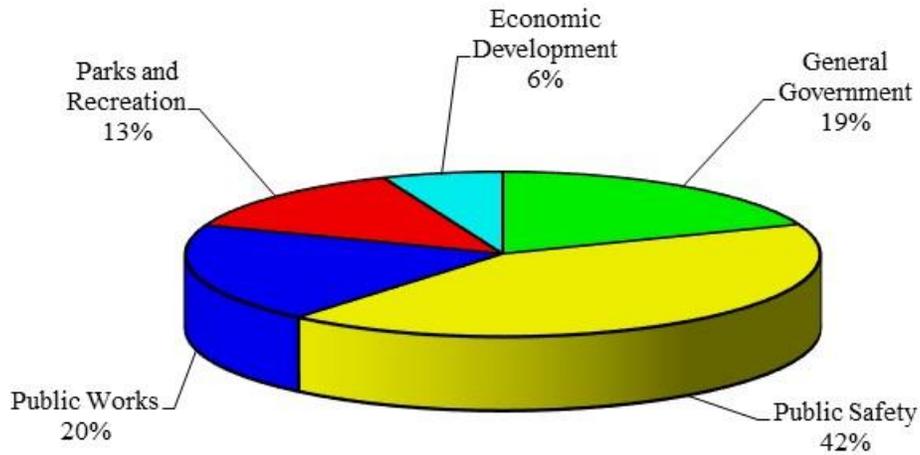

Business-Type Activities – Current year operating results of business-type activities increased net position by \$2,045,514, due to positive results of the utility operations of the City. Program revenues exceeded program expenses for each of the City’s business-type activities. The increase in development activity also contributed to more capital grants and contributions in the business-type activities with more water and sewer access charges in the current year. The City’s recognition of American Rescue Plan Act resources for allowable water improvements also contributed to the increase in capital grants and contributions in business-type activities.

Below are specific graphs that provide comparisons of the governmental activities' revenue and expenses:

Governmental Activities – Revenue

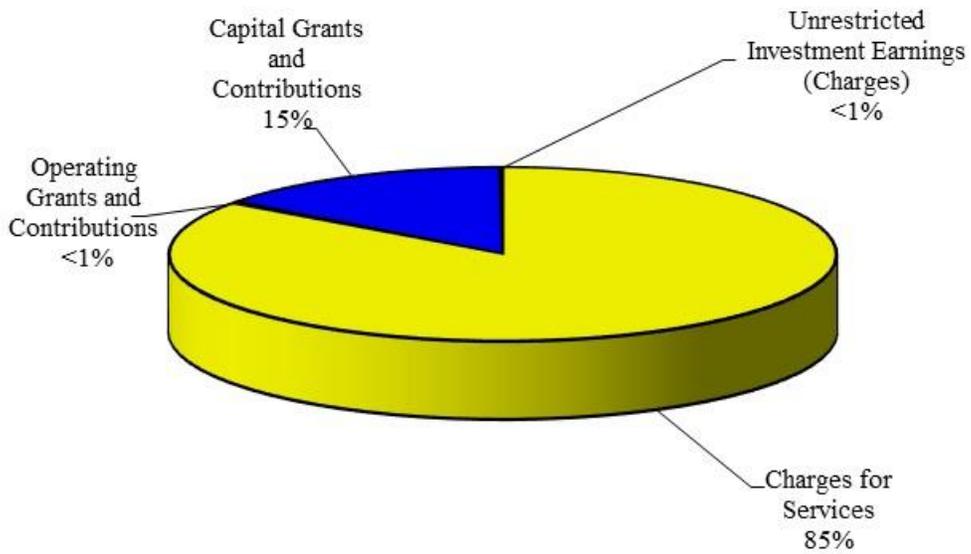

Governmental Activities – Expenses

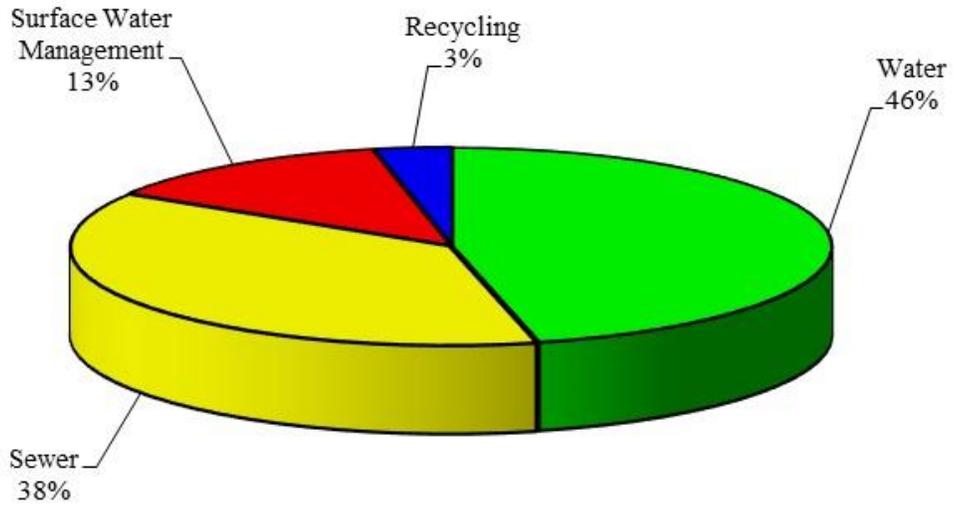

Below are specific graphs that provide comparisons of the business-type activities' revenue and expenses:

Business-Type Activities – Revenue

Business-Type Activities – Expenses

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$10,814,728, an increase of \$141,298 in comparison with the prior year. Committed, assigned, and unassigned fund balance, which are available for spending at the government's discretion, have a total balance of \$9,559,411 at year-end. The remainder of fund balance is nonspendable or restricted to indicate that it is not available for new spending because it has already been obligated: 1) for tax increment purposes (\$1,129,558), 2) for cable TV purposes (\$90,729), or 3) is not in spendable form for prepaid items (\$35,030).

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$2,899,564, while total fund balance equaled \$3,169,812. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance to expenditures. Unassigned fund balance represents 55.3 percent of the total subsequent year General Fund expenditures.

The City's General Fund equity decreased by \$210,694 during the current fiscal year, compared to a \$657,710 decrease approved in the final budget. This was due to favorable revenue and expenditure variances, with several departments spending less than amounts approved in the budget. Spending for other services and charges for protective inspections was over budget, due to the City contracting out their building inspection with difficulty filling open positions, along with increased activity ongoing in the current year. Conservative budgeting for less predictable sources, such as licenses and permits, contributed to the favorable revenue variance.

Fund balance in the Permanent Improvement Revolving Fund increased by \$61,650 in the current year. Total current year revenues and a transfer from the General Fund exceeded expenditures, which fluctuate based on the timing of street and trail projects.

Proprietary Funds – The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position in the respective proprietary funds includes: \$2,518,417 for water, \$1,079,248 for sewer, \$133,774 for surface water management, and \$190,195 for recycling. Water net position increased \$1,345,320, sewer net position increased \$424,746, surface water management net position increased \$227,248, and recycling net position increased \$48,200 during the year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Total General Fund revenues were \$201,320 more than estimated in the budget. Licenses and permits exceeded budgeted levels by \$177,012, primarily due to building permit fees with an increase in construction activity in the City. Expenditures within the General Fund were less than budget by \$245,696, spread across several functions but most noticeably in general government and parks and recreation, mainly in personal services.

During the year, the City Council approved budget amendments, which slightly reduced revenues by \$18,990 and increased transfers out by \$548,000, moving available resources to other funds.

CAPITAL ASSETS AND LONG-TERM LIABILITIES

Capital Assets – The City’s investment in capital assets for its governmental and business-type activities as of December 31, 2021 amounts to \$48,106,337 (net of accumulated depreciation). This investment in capital assets includes items such as land, construction in progress, buildings and structures, infrastructure and improvements, distribution and collection systems, machinery and equipment, office furniture and equipment, and vehicles.

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
	Land	\$ 2,679,818	\$ 2,679,818	\$ –	\$ –	\$ 2,679,818
Construction in progress	2,369,392	429,828	1,585,722	381,935	3,955,114	811,763
Buildings and structures	3,467,247	3,688,414	538,604	580,147	4,005,851	4,268,561
Infrastructure and improvements	17,656,824	18,198,967	–	–	17,656,824	18,198,967
Distribution and collection systems	–	–	18,065,524	18,298,005	18,065,524	18,298,005
Machinery and equipment	286,054	279,004	302,272	329,713	588,326	608,717
Office furniture and equipment	13,805	20,639	–	–	13,805	20,639
Vehicles	1,141,075	1,121,396	–	–	1,141,075	1,121,396
Total	<u>\$ 27,614,215</u>	<u>\$ 26,418,066</u>	<u>\$ 20,492,122</u>	<u>\$ 19,589,800</u>	<u>\$ 48,106,337</u>	<u>\$ 46,007,866</u>

Increases in the current year included ongoing projects for streets, related utility infrastructure, and trails, contributing to the changes in the table above as of year-end.

Additional information on the City’s capital assets can be found in Note 3 of the notes to basic financial statements.

Long-Term Liabilities – At the end of the current fiscal year, the City had total bonded debt outstanding of \$2,005,000, which is secured by specified revenue sources.

**Table 4
Outstanding Debt
Summary of Long-Term Debt**

	Governmental Activities		Business-Type Activities		Total	
	2021	2020	2021	2020	2021	2020
Utility revenue bonds	\$ –	\$ –	\$ 2,005,000	\$ 2,215,000	\$ 2,005,000	\$ 2,215,000
Premium	–	–	110,281	125,838	110,281	125,838
Compensated absences	99,716	106,271	77,592	76,829	177,308	183,100
Net pension liability	601,853	876,334	440,136	568,571	1,041,989	1,444,905
Total	\$ 701,569	\$ 982,605	\$ 2,633,009	\$ 2,986,238	\$ 3,334,578	\$ 3,968,843

State statutes limit the amount of net debt a Minnesota city may issue to 3 percent of total estimated market value.

The net pension liability decreased from the prior year, due to the change in the City’s proportionate share of pension obligations for the Public Employees Retirement Association – General Employees Retirement Fund state-wide pension plan.

Additional information on the City’s long-term liabilities can be found in Note 4 of the notes to basic financial statements.

ECONOMIC FACTORS AND NEXT YEAR’S BUDGETS AND RATES

- Dramatic increases in local government aids and other state sources are not anticipated based on legislation at the time of writing this report.
- Property tax collection rates are expected to remain strong, at or near the 2021 level.
- The COVID-19 pandemic continues to cause volatility in economic conditions and tremendous disruption in the way governments, businesses, and individuals function. The ongoing extent of the negative impact on the economy and city operations is unknown at this time.

REQUESTS FOR INFORMATION

This ACFR is designed to provide a general overview of the City’s finances for all those with an interest in the City’s finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the finance department, 1245 West Highway 96, Arden Hills, Minnesota 55112.

CITY OF ARDEN HILLS

Reconciliation of the Statement of
Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
Governmental Funds
Year Ended December 31, 2021

Net changes in fund balances – total governmental funds	\$ 141,298
Amounts reported for governmental activities in the Statement of Activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Capital outlay	2,244,925
Depreciation expense	(994,133)
A gain or loss on the disposal of capital assets, including the difference between the carrying value and any related sale proceeds, is included in the change in net position. However, only the sale proceeds are included in the change in fund balance.	
	(54,643)
Adjustments are made between the governmental funds and the Statement of Activities for the long-term liability activity of the net pension liability.	
	274,481
The recognition of certain revenues and expenses/expenditures differ between the full accrual governmental activities financial statements and the modified accrual governmental fund financial statements.	
Deferred outflows of resources – pension plans	323,655
Deferred inflows of resources – pension plans	(505,987)
Deferred inflows of resources – unavailable revenues	22,560
Internal service funds are used to allocate costs to individual funds. The net revenue of the Internal Service Fund is reported with governmental activities in the government-wide financial statements.	
	(54,220)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.	
Compensated absences	6,651
Change in net position of governmental activities	<u>\$ 1,404,587</u>

CITY OF ARDEN HILLS

Notes to Basic Financial Statements
December 31, 2021

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The City of Arden Hills, Minnesota (the City) was incorporated in 1951 and operates under the “Optional Plan A” form of government as defined in Minnesota Statutes. Under this plan, the government of the City is directed by a council composed of an elected mayor and four elected councilmembers. The City Council exercises legislative authority and determines all matters of policy. The City Council appoints personnel responsible for the proper administration of all affairs relating to the City.

The City provides the following municipal services: public safety (police, fire, civil defense, protective inspections, and animal control), highways and streets, sanitation and health, parks and recreation, public improvements, community development, and general administrative services.

The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

B. Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements include the City (the primary government) and its component unit. Component units are legally separate entities for which the primary government is financially accountable, or for which the exclusion of the component unit would render the financial statements of the primary government misleading. The criteria used to determine if the primary government is financially accountable for a component unit includes whether or not the primary government appoints the voting majority of the potential component unit’s board, is able to impose its will on the potential component unit, is in a relationship of financial benefit or burden with the potential component unit, or is fiscally depended upon by the potential component unit.

Blended component units, although legally separate entities, are, in substance, part of the City’s operations; therefore, data from these units are combined with data of the City. The City’s blended component unit has a December 31 year-end. The City has the following component unit:

Arden Hills Economic Development Authority (EDA) – The EDA of the City was created pursuant to Minnesota Statutes § 469.090–469.108 to carryout economic and industrial development and redevelopment consistent with policies established by the City Council. It is composed of the members of the City Council and the City has operational responsibility for the component unit. The EDA’s activities are blended and reported in separate special revenue funds. Separate financial statements are not issued for this component unit.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Government-Wide Financial Statement Presentation

The government-wide financial statements (Statement of Net Position and Statement of Activities) display information about the reporting government as a whole. These statements include all of the financial activities of the City. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which significantly rely upon sales, fees, and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other internally directed revenues are reported as general revenues.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes and special assessments are recognized as revenues in the fiscal year for which they are certified for levy. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. However, charges between the City's enterprise funds and other functions are not eliminated, as that would distort the direct costs and program revenues reported in those functions. Depreciation expense is included in the direct expenses of each function. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

D. Fund Financial Statement Presentation

Separate fund financial statements are provided for governmental and proprietary funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements. Aggregated information for the remaining nonmajor governmental funds is reported in a single column in the fund financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this basis of accounting, transactions are recorded in the following manner:

- 1. Revenue Recognition** – Revenue is recognized when it becomes measurable and available. “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days after year-end. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Grants and similar items are recognized when all eligibility requirements imposed by the provider have been met. Proceeds of long-term debt and acquisitions under capital leases, when applicable, are reported as other financing sources.

Major revenue that is susceptible to accrual includes property taxes, special assessments, intergovernmental revenue, charges for services, and interest earned on investments. Major revenue that is not susceptible to accrual includes licenses and permits, fees, and miscellaneous revenue. Such revenue is recorded only when received because it is not measurable until collected.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- 2. Recording of Expenditures** – Expenditures are generally recorded when a liability is incurred, except for principal and interest on long-term debt and other long-term obligations, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as capital outlay expenditures in the governmental funds.

Proprietary fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting, similar to the government-wide financial statements. Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. The operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses that do not meet this definition are reported as nonoperating revenues and expenses.

Aggregated information for the internal service funds is reported in a single column in the proprietary fund financial statements. Because the principal user of the internal services is the City's governmental activities, the financial statements of the internal service funds are consolidated into the governmental column when presented in the government-wide financial statements. The cost of these services is reported in the appropriate functional activity.

Description of Funds

The City reports the following major governmental funds:

General Fund – The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Permanent Improvement Revolving Fund – The Permanent Improvement Revolving Fund (capital project fund) accounts for the acquisition of capital assets or construction for major capital projects not being financed by proprietary funds.

The City reports the following major enterprise funds:

Water Fund – The Water Fund accounts for the water service charges, which are used to finance the water system operations.

Sewer Fund – The Sewer Fund accounts for the sewer service charges, which are used to finance the sanitary sewer system operations.

Surface Water Management Fund – The Surface Water Management Fund accounts for the surface water charges, which are used to finance the surface water system operations.

The City reports the following nonmajor enterprise fund:

Recycling Fund – The Recycling Fund accounts for the recycling service charges, which are used to finance the City's recycling operations.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Additionally, the City reports the following fund type:

Internal Service Funds – The internal service funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the City, or to other governments on a cost-reimbursement basis. The City’s internal service funds account for risk management, engineering, central garage, and technology services.

E. Budgets and Budgetary Accounting

Budgets are legally adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are legally adopted for the General Fund and most special revenue funds. Budgeted expenditure appropriations lapse at year-end, but may be adopted in the subsequent year.

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

1. The city administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
2. Public hearings are conducted to obtain taxpayer comments.
3. The budget is legally enacted through passage of a resolution. The appropriated budget is prepared by fund, function, and department. The City’s department heads, with the approval of the city administrator, may make transfers of appropriations within a department. Transfers of appropriations between funds require the approval of the City Council. The legal level of budgetary control is the fund level. Budgeted amounts are as amended by the City Council.
4. The city administrator is authorized to transfer appropriations within any fund budget. Adjustments to appropriations between funds, and budget additions and deletions must be authorized by the City Council.
5. Formal budgetary integration is employed as a management control device during the year for the General Fund and special revenue funds.
6. Legal debt obligation indentures determine the appropriation level and debt service tax levies for the Debt Service Fund (if necessary). Supplementary budgets are adopted for the proprietary funds to determine and calculate user charges. These debt service and budget amounts represent general obligation bond indenture provisions and net income for operation and capital maintenance, and are not reflected in the financial statements.
7. A capital improvement program is reviewed annually by the City Council for the capital project funds. However, appropriations for major projects are not adopted until the actual bid award of the improvement. Budgetary control for capital projects funds is accomplished through the use of project controls, not legally enacted budgets. The appropriations are not reflected in the financial statements.

For the year ended December 31, 2021, actual expenditures exceeded budgeted expenditures in the EDA TIF District No. 4 Special Revenue Fund by \$56,011. This variance was financed by revenues in excess of budget.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Cash and Investments

Cash and investments include balances that are combined and invested to the extent available in various securities as authorized by state law. Allocations of pooled investment earnings to the respective funds is based on participation by each fund.

For purposes of the Statement of Cash Flows, the City considers all highly liquid debt instruments with an original maturity from the time of purchase by the City of three months or less to be cash equivalents. The proprietary funds' portion in the government-wide cash and investment management pool is considered to be cash equivalent.

The City generally reports investments at fair value. The Minnesota Municipal Money Market (4M) Fund is an external investment pool regulated by Minnesota Statutes that is not registered with the Securities and Exchange Commission (SEC), but follows the same regulatory rules of the SEC. The fair value of the position in the pool is the same as the value of the pool shares, which is based on an amortized cost method that approximates fair value. The 4M Fund is sponsored by the League of Minnesota Cities. For this investment pool, there are no unfunded commitments, redemption frequency is daily, and there is no redemption notice required for the Liquid Class; the redemption notice period is 14 days for the Plus Class.

The City categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Debt securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

See Note 2 for the City's recurring fair value measurements as of year-end.

G. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. Short-term interfund loans are classified as "interfund receivables/payables." All short-term interfund receivables and payables at year-end are planned to be eliminated in the subsequent year. Long-term interfund loans are classified as "advances receivable/payable." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

H. Receivables

Property taxes and special assessments receivable have been reported net of estimated uncollectible accounts (see Note 1 I. and J.). Because utility bills are considered liens on property, no estimated uncollectible amounts are established. Uncollectible amounts are not material for other receivables and have not been reported. The only receivables not expected to be collected within one year are property taxes, special assessments, and the long-term receivable in the Permanent Improvement Revolving Fund.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

I. Property Taxes

Property tax levies are set by the City Council in December of each year, and are certified to Ramsey County for collection in the following year. In Minnesota, counties act as collection agents for all property taxes. The county spreads the levies over all taxable property. Such taxes become a lien on January 1 and are recorded as receivables by the City on that date. Real property taxes may be paid by taxpayers in two equal installments on May 15 and October 15. Personal property taxes are due in full on May 15. The county provides tax settlements to cities and other taxing districts three times a year: in July, December, and January.

Property taxes are recognized as revenue in the year levied in the government-wide financial statements and proprietary fund financial statements. In the governmental fund financial statements, taxes are recognized as revenue when received in cash or within 60 days after year-end. Taxes which remain unpaid on December 31 are classified as delinquent taxes receivable, and are offset by a deferred inflow of resources in the governmental fund financial statements.

J. Special Assessments

Special assessments primarily represent the financing for public improvements paid for by benefiting property owners. As previously mentioned under receivables, the City is also generally able to certify delinquent amounts to the county for collection as special assessments. Special assessments are recorded as receivables upon certification to the county. Special assessments are recognized as revenue in the year levied in the government-wide financial statements and proprietary fund financial statements. In the governmental fund financial statements, special assessments are recognized as revenue when received in cash or within 60 days after year-end. Governmental fund special assessments receivable which remain unpaid on December 31 are offset by a deferred inflow of resources in the governmental fund financial statements.

K. Inventories

The original cost of materials and supplies has been recorded as expenses/expenditures at the time of purchase for both the governmental and proprietary funds, with the exception of water meters in the Water Fund. These funds do not maintain material amounts of materials and supplies. The water meter inventory in the Water Fund is stated at the lower of cost or market on the first-in, first-out method.

L. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Prepaid items are reported using the consumption method and recorded as expenses/expenditures at the time of consumption.

M. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Such assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated assets are recorded as capital assets at their estimated acquisition value on the date of donation. The City defines capital assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the City chose to include items dating back to June 30, 1980. These assets are reported at historical cost. The City estimated historical cost for the initial reporting of these assets through back trending (estimating the current replacement cost and utilizing an appropriate price-level index to deflate the cost to the acquisition year). As the City constructs or acquires additional infrastructure assets each period, they will be capitalized and reported at historical cost.

Capital assets are recorded in the government-wide and proprietary fund financial statements, but are not reported in the governmental fund financial statements. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment of the City are depreciated using the straight-line method over the following estimated useful lives:

Buildings and structures	7–40 years
Infrastructure and improvements	15–50 years
Distribution and collection systems	15–50 years
Machinery and equipment	5–15 years
Office furniture and equipment	5–10 years
Vehicles	7–20 years

Land and construction in progress are not depreciated.

N. Compensated Absences

It is the City's policy to permit employees to accumulate earned, but unused annual leave and sick pay benefits called personal time off (PTO). All PTO is accrued when incurred in the government-wide and proprietary fund financial statements. PTO is payable when used or upon termination of employment. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. A liability is recognized for that portion of accumulated PTO benefits that is vested as severance pay. PTO is payable when used and, in some cases, upon termination of employment. For regular employees, PTO is payable upon retirement or involuntary termination up to the amount accrued, not to exceed 240 hours, who have served at least 12 consecutive months prior to separation, and have given the City at least two weeks' notice prior to the effective date of such separation. The recorded portion of PTO (compensated absences) represents the estimated amount expected, based on previous years' history and those eligible for retirement, to be paid at separation.

O. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the straight-line method. Bond issuance costs are expensed in the period incurred.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

P. State-Wide Pension Plans

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from the PERA's fiduciary net position have been determined on the same basis as they are reported by the PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments, and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Q. Deferred Outflows/Inflows of Resources

In addition to assets and liabilities, statements of financial position or balance sheets, will sometimes report separate sections for deferred outflows or inflows of resources. These separate financial statement elements represent a consumption or acquisition of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) or an inflow of financial resources (revenue) until then.

The City reports deferred outflows and inflows of resources related to pensions in the government-wide and enterprise funds Statement of Net Position. These deferred outflows and inflows result from differences between expected and actual economic experience, changes in actuarial assumptions, net collective difference between projected and actual investment earnings, changes in proportion, and contributions to the plan subsequent to the measurement date and before the end of the reporting period. These amounts are deferred and amortized as required under pension standards.

Unavailable revenue arises only under the modified accrual basis of accounting and, therefore, is reported only in the governmental funds Balance Sheet. The governmental funds report unavailable revenue from three sources: property taxes, special assessments, and long-term receivables. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

Imposed nonexchange revenue transactions, state aid received for subsequent years, is deferred and recognized as an inflow of resources in the period that the resources are appropriated. This item is reported both in the governmental funds Balance Sheet and the government-wide Statement of Net Position as a deferred inflow of resources.

R. Net Position Classifications and Flow Assumptions

In the government-wide and proprietary fund financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net position is displayed in three components:

- **Net Investment in Capital Assets** – Consists of capital assets, net of accumulated depreciation, reduced by any outstanding debt attributable to acquire capital assets.
- **Restricted Net Position** – Consists of net position restricted when there are limitations imposed on its use through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.
- **Unrestricted Net Position** – All other elements of net position that do not meet the definition of “restricted” or “net investment in capital assets.”

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

S. Fund Balance Classifications and Flow Assumptions

In the fund financial statements, governmental funds report fund balance in classifications that disclose constraints for which amounts in those funds can be spent. These classifications are as follows:

- **Nonspendable** – Consists of amounts that are not in spendable form, such as prepaid items, inventory, and other long-term assets.
- **Restricted** – Consists of amounts related to externally imposed constraints established by creditors, grantors, or contributors; or constraints imposed by state statutory provisions.
- **Committed** – Consists of internally imposed constraints that are established by resolution of the City Council. Those committed amounts cannot be used for any other purpose unless the City Council removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.
- **Assigned** – Consists of internally imposed constraints for amounts intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds, assigned amounts represent intended uses established by the governing body itself or by an official to which the governing body delegates the authority. Pursuant to City Council resolution, the finance director and/or the city administrator is authorized to establish assignments of fund balance.
- **Unassigned** – The residual classification for the General Fund, which also reflects negative residual amounts in other funds.

When both restricted and unrestricted resources are available for use, it is the City's policy to first use restricted resources, then use unrestricted resources as they are needed.

When committed, assigned, or unassigned resources are available for use, it is the City's policy to use resources in the following order: 1) committed, 2) assigned, and 3) unassigned.

T. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

NOTE 2 – DEPOSITS AND INVESTMENTS

A. Components of Cash and Investments

The City had the following cash and investments at year-end:

Investment Type	Credit Risk		Fair Value Measurements Using	Interest Risk – Maturity Duration in Years			Total
	Rating	Agency		Less Than 1 Year	1 to 5 Years	6 to 10 Years	
U.S. Government Agency Securities							
Federal Home Loan Bank	AA	S&P	Level 2	\$ –	\$ 634,003	\$ 454,682	\$ 1,088,685
Federal Farm Credit Bank	AA	S&P	Level 2	–	294,423	294,678	589,101
Municipal bonds	AAA	S&P	Level 2	–	236,330	–	236,330
Municipal bonds	AAA	Moody's	Level 2	–	236,255	–	236,255
Municipal bonds	AA	S&P	Level 2	–	1,549,450	1,291,585	2,841,035
Municipal bonds	AA	Moody's	Level 2	–	819,007	415,688	1,234,695
Municipal bonds	A	Moody's	Level 2	–	331,457	–	331,457
Negotiable certificates of deposit	N/R	N/A	Level 2	494,626	1,940,040	–	2,434,666
Investment pools/mutual funds							
4M Fund	N/R	N/A	N/A	8,551,779	–	–	8,551,779
Wells Fargo Money Market Advantage	AAA	S&P	Level 1	648	–	–	648
Total investments				<u>\$ 9,047,053</u>	<u>\$ 6,040,965</u>	<u>\$ 2,456,633</u>	17,544,651
Deposits							400,677
Petty cash							500
Total cash and investments							<u>\$17,945,828</u>

N/R – Not Rated

N/A – Not Applicable

B. Deposits

In accordance with applicable Minnesota Statutes, the City maintains deposits at depository banks authorized by the City Council, including checking accounts and certificates of deposit.

The following is considered the most significant risk associated with deposits:

Custodial Credit Risk – In the case of deposits, this is the risk that in the event of a failure, the City's deposits may be lost.

Minnesota Statutes require that all deposits be protected by federal deposit insurance, corporate surety bond, or collateral. The fair value of collateral pledged must equal 110 percent of the deposits not covered by federal deposit insurance or corporate surety bonds. Authorized collateral includes treasury bills, notes, and bonds; issues of U.S. government agencies; general obligations rated "A" or better; revenue obligations rated "AA" or better; irrevocable standard letters of credit issued by the Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require that securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral. The City has no additional deposit policies addressing custodial credit risk.

At year-end, the carrying amount of the City's deposits and the bank balance was \$400,677. The entire bank balance was covered by federal deposit insurance, surety bonds, or by collateral held by the City's agent in the City's name.

NOTE 2 – DEPOSITS AND INVESTMENTS (CONTINUED)

C. Investments

Investments are subject to various risks, the following of which are considered the most significant:

Custodial Credit Risk – For investments, this is the risk that in the event of a failure of the counterparty to an investment transaction (typically a broker-dealer), the City would not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City’s investment policies do not further address this risk, but typically limits its exposure by purchasing insured or registered investments, or by the control of who holds the securities.

Credit Risk – This is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Minnesota Statutes limit the City’s investments to direct obligations or obligations guaranteed by the United States or its agencies; shares of investment companies registered under the Federal Investment Company Act of 1940 that receive the highest credit rating, are rated in one of the two highest rating categories by a statistical rating agency, and all of the investments have a final maturity of 13 months or less; general obligations rated “A” or better; revenue obligations rated “AA” or better; general obligations of the Minnesota Housing Finance Agency rated “A” or better; bankers’ acceptances of United States banks eligible for purchase by the Federal Reserve System; commercial paper issued by United States corporations or their Canadian subsidiaries, rated of the highest quality category by at least two nationally recognized rating agencies, and maturing in 270 days or less; Guaranteed Investment Contracts guaranteed by a United States commercial bank, domestic branch of a foreign bank, or a United States insurance company, and with a credit quality in one of the top two highest categories; repurchase or reverse purchase agreements and securities lending agreements with financial institutions qualified as a “depository” by the government entity, with banks that are members of the Federal Reserve System with capitalization exceeding \$10,000,000; that are a primary reporting dealer in U.S. government securities to the Federal Reserve Bank of New York; or certain Minnesota securities broker-dealers. The City’s investment policies do not further address credit risk.

Interest Rate Risk – This is the risk of potential variability in the fair value of fixed rate investments resulting from changes in interest rates (the longer the period for which an interest rate is fixed, the greater the risk). The City’s investment policies do not mandate a limit on the duration of investments.

Concentration Risk – This is the risk associated with investing a significant portion of the City’s investment (considered 5.0 percent or more) in the securities of a single issuer, excluding United States guaranteed investments (such as treasuries), investment pools, and mutual funds. The City’s investment policies state that no more than 5.0 percent of the overall portfolio may be invested in the securities of a single issuer, except for the securities of the United States government, or a maximum of 25.0 percent with any individual counterparty in an external investment pool. At December 31, 2021, the City’s investment in Federal Home Loan Bank represented 6.2 percent of the total investments of the City.

NOTE 3 – CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2021 was as follows:

A. Governmental Activities

	Beginning Balance	Increases	Decreases	Completed Construction	Ending Balance
Primary government					
Governmental activities					
Capital assets, not being depreciated					
Land	\$ 2,679,818	\$ –	\$ –	\$ –	\$ 2,679,818
Construction in progress	429,828	1,939,564	–	–	2,369,392

NOTE 3 – CAPITAL ASSETS (CONTINUED)

C. Depreciation Expense by Function

Depreciation expense was charged to the following functions:

Governmental activities	
General government	\$ 94,509
Public safety	9,425
Public works	572,582
Parks and recreation	256,231
Economic development	61,386
	<u>994,133</u>
	<u>\$ 994,133</u>
Business-type activities	
Water	\$ 365,453
Sewer	194,428
Surface water management	145,008
	<u>704,889</u>
	<u>\$ 704,889</u>

NOTE 4 – LONG-TERM LIABILITIES

A. General Obligation Bonds Payable

The City currently has the following general obligation bonds payable outstanding:

	<u>Issue Date</u>	<u>Final Maturity Date</u>	<u>Interest Rate</u>	<u>Authorized and Issued</u>	<u>Balance – End of Year</u>
Business-type activities					
General Obligation Bonds					
Utility Revenue Bonds of 2018A	07/18/2018	02/01/2029	3.00–4.00 %	\$ 2,415,000	\$ 2,005,000

These bonds were issued to finance acquisition, construction, and/or improvements of capital facilities. Water and Sewer Enterprise Fund revenues will be used to repay this debt. The liability is recorded in the applicable enterprise fund.

B. Other Long-Term Liabilities

- **Compensated Absences** – This liability represents vested benefits earned by employees through the end of the year, which will be paid or used in future periods. The General, special revenue, enterprise, and internal service funds will be used to liquidate this liability.
- **Net Pension Liability** – This liability represents the City’s pension benefit obligations as further described later in these notes. The General, Water, Sewer, and Surface Water Management Funds will be used to liquidate this liability.

NOTE 4 – LONG-TERM LIABILITIES (CONTINUED)

C. Changes in General Obligation Bonds and Compensated Absences Payable

	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Governmental activities					
Compensated absences	\$ 106,271	\$ 98,540	\$ 105,095	\$ 99,716	\$ 74,787
Business-type activities					
Utility revenue bonds	2,215,000	–	210,000	2,005,000	220,000
Premium	125,838	–	15,557	110,281	–
Total bonds	2,340,838	–	225,557	2,115,281	220,000
Compensated absences	76,829	80,642	79,879	77,592	58,193
Total business-type activities	2,417,667	80,642	305,437	2,192,873	278,193
Total government-wide	<u>\$ 2,523,938</u>	<u>\$ 179,182</u>	<u>\$ 410,532</u>	<u>\$ 2,292,589</u>	<u>\$ 352,980</u>

D. Minimum Debt Payments

Minimum annual payments required to retire bonds are as follows:

Year Ending December 31,	Business-Type Activities	
	Utility Revenue Bonds	
	Principal	Interest
2022	\$ 220,000	\$ 70,200
2023	225,000	61,300
2024	235,000	52,100
2025	245,000	42,500
2026	255,000	32,500
2027	265,000	22,100
2028	275,000	12,675
2029	285,000	4,275
	<u>\$ 2,005,000</u>	<u>\$ 297,650</u>

E. Revenue Pledged

Future revenue pledged for the payment of long-term debt is as follows:

Debt Issue	Use of Proceeds	Revenue Pledged			Remaining Principal and Interest	Current Year	
		Type	Percent of Total Debt Service	Term of Pledge		Principal and Interest Paid	Pledged Revenue Received
Utility Revenue Bonds of 2018A	Utility improvements	Utility charges	100%	2018–2029	\$ 2,302,650	\$ 288,800	\$ 5,401,871

NOTE 5 – NET POSITION/FUND BALANCES

A. Net Investment in Capital Assets

The government-wide Statement of Net Position at December 31, 2021 includes the City’s net investment in capital assets calculated as follows:

	Governmental Activities	Business-Type Activities	Total
Net investment in capital assets:			
Capital assets			
Nondepreciable	\$ 5,049,210	\$ 1,585,722	\$ 6,634,932
Depreciable, net of accumulated depreciation	22,565,005	18,906,400	41,471,405
Less capital related long-term debt outstanding	–	(2,115,281)	(2,115,281)
Less capital related accounts/contracts payable	(139,256)	(3,506)	(142,762)
Total net investment in capital assets	<u>\$ 27,474,959</u>	<u>\$ 18,373,335</u>	<u>\$ 45,848,294</u>

B. Governmental Fund Balance Classifications

At December 31, 2021, a summary of the City’s governmental fund balance classifications are as follows:

	General	Permanent Improvement Revolving	Other Governmental Funds	Total
Nonspendable				
Prepaid items	\$ 31,152	\$ –	\$ 3,878	\$ 35,030
Restricted for				
Tax increment purposes	–	–	1,129,558	1,129,558
Cable TV	–	–	90,729	90,729
Total restricted	–	–	1,220,287	1,220,287
Committed for				
Economic development authority	–	–	654,042	654,042
Assigned for				
Compensated absences	99,096	–	–	99,096
Subsequent year’s budget	140,000	–	–	140,000
Capital improvements	–	4,990,120	261,891	5,252,011
Park improvements	–	–	565,169	565,169
Public safety capital equipment	–	–	173,067	173,067
Total assigned	239,096	4,990,120	1,000,127	6,229,343
Unassigned	2,899,564	–	(223,538)	2,676,026
Total	<u>\$ 3,169,812</u>	<u>\$ 4,990,120</u>	<u>\$ 2,654,796</u>	<u>\$ 10,814,728</u>

C. Minimum Unassigned Fund Balance Policy

The City Council has formally adopted a fund balance policy regarding the minimum unassigned fund balance for the General Fund. The policy establishes the City will strive to maintain an unassigned General Fund balance of 50.0 percent of the subsequent year’s General Fund budgeted expenditures. At December 31, 2021, the unassigned fund balance of the General Fund was 55.3 percent of the subsequent year’s budgeted expenditures.

NOTE 6 – DEFINED BENEFIT PENSION PLAN – STATE-WIDE

A. Plan Descriptions

The City participates in the following cost-sharing, multiple-employer defined benefit pension plan administered by the PERA of Minnesota. The PERA's defined benefit pension plan is established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. The PERA's defined benefit pension plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code.

General Employees Retirement Fund (GERF)

All full-time and certain part-time employees of the City are covered by the GERF. The GERF members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

B. Benefits Provided

The PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statutes and can only be modified by the State Legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

GERF Benefits

Benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for the PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated Plan members is 1.2 percent for each of the first 10 years of service, and 1.7 percent for each additional year. Under Method 2, the accrual rate for Coordinated Plan members is 1.7 percent for all years of service. For members hired prior to July 1, 1989, a full annuity is available when age plus years of service equal 90, and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at age 66.

Benefit increases are provided to benefit recipients each January. The post-retirement increase is equal to 50.0 percent of the cost of living adjustment (COLA) announced by the Social Security Administration, with a minimum increase of at least 1.0 percent and a maximum of 1.5 percent. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase, will receive the full increase. Recipients receiving the annuity or benefit for at least one month, but less than a full year as of the June 30 before the effective date of the increase, will receive a reduced prorated increase. For members retiring on January 1, 2024 or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

C. Contributions

Minnesota Statutes, Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the State Legislature.

NOTE 6 – DEFINED BENEFIT PENSION PLAN – STATE-WIDE (CONTINUED)

GERF Contributions

Coordinated Plan members were required to contribute 6.50 percent of their annual covered salary in fiscal year 2021, and the City was required to contribute 7.50 percent for Coordinated Plan members. The City’s contributions to the GERF for the year ended December 31, 2021, were \$123,572. The City’s contributions were equal to the required contributions as set by state statutes.

D. Pension Costs

GERF Pension Costs

At December 31, 2021, the City reported a liability of \$1,041,989 for its proportionate share of the GERF’s net pension liability. The City’s net pension liability reflected a reduction, due to the state of Minnesota’s contribution of \$16.0 million. The state of Minnesota is considered a nonemployer contributing entity and the state’s contribution meets the definition of a special funding situation. The state of Minnesota’s proportionate share of the net pension liability associated with the City totaled \$31,890. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The City’s proportion of the net pension liability was based on the City’s contributions received by the PERA during the measurement period for employer payroll paid dates from July 1, 2020 through June 30, 2021, relative to the total employer contributions received from all of the PERA’s participating employers. The City’s proportionate share was 0.0244 percent at the end of the measurement period and 0.0241 percent for the beginning of the period.

The amount recognized by the City as its proportionate share of the net pension liability, the direct aid, and total portion of the net pension liability that was associated with the City were as follows:

City’s proportionate share of the net pension liability	\$ 1,041,989
State’s proportionate share of the net pension liability associated with the City	\$ 31,890

For the year ended December 31, 2021, the City recognized pension expense of \$29,729 for its proportionate share of the GERF’s pension expense. In addition, the City recognized an additional \$2,563 as pension expense (and grant revenue) for its proportionate share of the state of Minnesota’s contribution of \$16.0 million to the GERF.

At December 31, 2021, the City reported its proportionate share of the GERF’s deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 5,720	\$ 31,842
Changes in actuarial assumptions	636,216	22,077
Net collective difference between projected and actual investment earnings	–	901,163
Changes in proportion	77,071	–
Contributions paid to the PERA subsequent to the measurement date	59,392	–
	<u>59,392</u>	<u>–</u>
Total	<u>\$ 778,399</u>	<u>\$ 955,082</u>

NOTE 6 – DEFINED BENEFIT PENSION PLAN – STATE-WIDE (CONTINUED)

A total of \$59,392 reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending December 31, 2022. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	Pension Expense Amount
2022	\$ (5,978)
2023	\$ 20,093
2024	\$ (4,055)
2025	\$ (246,135)

E. Long-Term Expected Return on Investments

The Minnesota State Board of Investment, which manages the investments of the PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best-estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic equity	33.50 %	5.10 %
International equity	16.50	5.30 %
Fixed income	25.00	0.75 %
Private markets	25.00	5.90 %
Total	<u>100.00 %</u>	

F. Actuarial Assumptions

The total pension liability in the June 30, 2021, actuarial valuation was determined using an individual entry-age normal actuarial cost method. The long-term rate of return on pension plan investments used in the determination of the total liability is 6.50 percent. This assumption is based on a review of inflation and investments return assumptions from a number of national investment consulting firms. The review provided a range of return investment return rates deemed to be reasonable by the actuary. An investment return of 6.50 percent was deemed to be within that range of reasonableness for financial reporting purposes.

Inflation is assumed to be 2.25 percent for the General Employees Plan. Benefit increases after retirement are assumed to be 1.25 percent for the General Employees Plan.

Salary growth assumptions in the General Employees Plan range in annual increments from 10.25 percent after one year of service to 3.00 percent after 29 years of service, and 6.00 percent per year thereafter.

NOTE 6 – DEFINED BENEFIT PENSION PLAN – STATE-WIDE (CONTINUED)

Mortality rates for the General Employees Plan are based on the Pub-2010 General Employee Mortality Table. The table is adjusted slightly to fit the PERA’s experience.

Actuarial assumptions for the General Employees Plan are reviewed every four years. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020 actuarial valuation.

The following changes in actuarial assumptions and plan provisions occurred in 2021:

GERF – CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

G. Discount Rate

The discount rate used to measure the total pension liability in 2021 was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the GERF were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

H. Pension Liability Sensitivity

The following table presents the City’s proportionate share of the net pension liability, calculated using the discount rate disclosed in the preceding paragraph, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease in Discount Rate 5.50%	Discount Rate 6.50%	1% Increase in Discount Rate 7.50%
City’s proportionate share of the GERF net pension liability	\$ 2,125,126	\$ 1,041,989	\$ 153,209

I. Pension Plan Fiduciary Net Position

Detailed information about the pension plan’s fiduciary net position is available in a separately-issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the internet at www.mnpera.org.

NOTE 7 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

A. Interfund Receivable and Payable

Interfund receivable and payable balances at December 31, 2021 are as follows:

Fund	Receivable	Payable
Governmental funds		
Permanent Improvement Revolving	\$ 194,879	\$ –
Nonmajor – other governmental	29,016	223,895
Intra-activity eliminations	<u>(223,895)</u>	<u>(223,895)</u>
Total governmental funds	<u>\$ –</u>	<u>\$ –</u>

Interfund receivables and payables are used for temporary cash deficits. These balances will be eliminated with park dedication fees, future charges for services, grants, and other internal fund transfers, if needed.

B. Transfers In and Transfers Out

Transfers Out	Transfers In		
	Governmental Funds		Total
	Permanent Improvement Revolving	Nonmajor – Other Governmental	
Governmental funds			
General Fund	\$ 548,000	\$ –	\$ 548,000
Proprietary funds			
Water	–	100,000	100,000
Sewer	–	126,000	126,000
Surface Water Management	<u>–</u>	<u>74,000</u>	<u>74,000</u>
Total	<u>\$ 548,000</u>	<u>\$ 300,000</u>	<u>\$ 848,000</u>

Transfers are made in accordance with budget appropriations or as approved by the City Council for special funding of city activities. All of the transfers presented above were approved by the City Council to finance current and future capital expenditures of the City.

NOTE 8 – DEFICIT FUND BALANCES/NET POSITION

The City had deficit fund balances/net position at December 31, 2021 as follows:

	<u>Amount</u>
Governmental funds	
Nonmajor – EDA TIF District No. 5	\$ 22,047
Nonmajor – Karth Lake Improvement District	6,612
Nonmajor – TCAAP	<u>194,879</u>
	<u>\$ 223,538</u>

These fund deficits will be eliminated with future contributions, grants, and internal fund transfers, if needed.

NOTE 9 – TAX ABATEMENT AGREEMENTS

The City, in order to spur economic development and redevelopment, will enter into private development and redevelopment agreements to encourage a developer to construct, expand, or improve new or existing properties and buildings or clean-up and redevelop blighted areas. These agreements may in substance be a tax abatement, but will depend on their individual circumstances. The City currently has one agreement that would be considered a tax abatement under GASB Statement No. 77.

In 2013, the City entered into a development agreement with Presbyterian Homes of Arden Hills, Inc. to aid in financing certain public development costs and administrative costs of a project undertaken. For this agreement, the City used an economic development vehicle known as tax increment financing, whereby tax increment revenue is generated on the incremental increase in value above a base value established on the date that the tax increment district is created. The City will abate 75 percent of the incremental taxes received through February 2028, through execution of a tax increment revenue note to be retired in 2028. The outstanding principal balance as of December 31, 2021 was \$52,221, and the City rebated \$282,880 in the current year.

The City is authorized to create a tax increment financing plan under Minnesota Statutes, Chapter 469.175. The criteria that must be met under the statutes are that, in the opinion of the municipality:

- The proposed development or redevelopment would not reasonably be expected to occur solely through private investment within the reasonably foreseeable future;
- The increased market value of the site that could reasonably be expected to occur without the use of tax increment financing, would be less than the increase in the market value estimated to result from the proposed development after subtracting the present value of the projected tax increments for the maximum duration of the district permitted by the plan. The requirements of this item do not apply if the district is a housing district;
- The tax increment financing plan conforms to the general plan for the development or redevelopment of the municipality as a whole; and
- The tax increment financing plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the development or redevelopment of the project by private enterprise.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

A. Risk Management

The City is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the City carries insurance. The City obtains insurance through participation in the League of Minnesota Cities Insurance Trust (LMCIT), which is a risk-sharing pool with other governmental units. The City pays an annual premium to the LMCIT for its workers' compensation and property and casualty insurance. The LMCIT is self-sustaining through member premiums and will reinsure for claims above a prescribed dollar amount for each insurance event. There were no significant reductions in insurance from the previous year or settled claims in excess of insurance coverage for any of the past three fiscal years.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities, if any, include an amount for claims that have been incurred, but not reported. The City's management is not aware of any incurred, but unreported claims.

B. Litigation

The City has the usual and customary type of miscellaneous legal claims pending at year-end. Although the outcome of these lawsuits is not presently determinable, the City's management believes that the City will not incur any material monetary loss resulting from these claims. No loss has been recorded on the City's financial statements relating to these claims.

C. Federal and State Funds

Amounts recorded or receivable from federal and state agencies are subject to agency audit and adjustment. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of claims which may be disallowed by the grantor agencies cannot be determined at this time, although the City expects such amounts, if any, to be immaterial.

D. Tax Increment Districts

The City's tax increment districts are subject to review by the Minnesota Office of the State Auditor. Any disallowed claims or misuse of tax increments could become a liability of the applicable fund. Management has indicated that they are not aware of any instances of noncompliance, which would have a material effect on the financial statements.

E. Lake Johanna Volunteer Fire Department, Inc.

The City receives fire protection under a contract with the Lake Johanna Volunteer Fire Department, Inc. The contract calls for annual payments and expires December 31, 2023, with an extension option through December 31, 2038. The contract cost will be based on the budget submitted by the fire department and approved by the City. Capital costs are billed separately, in addition to the contract rate. The amount expended under the contract was \$656,401 in 2021.

NOTE 10 – COMMITMENTS AND CONTINGENCIES (CONTINUED)

F. Construction Contract Commitments

At year-end, the City had the following construction project commitments:

Project	Amount
Permanent Improvement Revolving Fund	
2021 pavement management program	\$ 131,312
Sewer Fund	
Lift station 10 rehabilitation	130,700
2021 sewer lining	190,250
	<u>\$ 452,262</u>

NOTE 11 – CONDUIT DEBT OBLIGATION

The City has issued private activity bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds constitute special obligations of the City, payable solely from revenues of the projects pledged to the payment thereof. The bonds do not constitute a debt of the City and the City has no obligation for repayment. Accordingly, the bonds are not reported as liabilities in the City's financial statements. Bonds outstanding at December 31, 2021 are as follows:

Bond	Description	Amount Outstanding
Commercial Facilities Revenue Note, Series 2008	Office facilities	\$ 2,609,066
Housing Facility Revenue Note, Series 2011A	Senior housing	7,615,034
Housing Facility Revenue Note, Series 2011B	Senior housing	7,615,034
Housing Facility Revenue Note, Series 2012A	Senior housing	7,615,034
Housing Facility Revenue Note, Series 2012B	Senior housing	1,516,590
Housing Facility Revenue Note, Series 2015	Senior housing	8,337,599
Total		<u>\$ 35,308,357</u>

NOTE 12 – SUBSEQUENT EVENTS

A. New Accounting Standards

A new standard has been issued by the GASB that will result in significant changes in the reporting of leases once it becomes effective for governmental entities. This standard will be adopted by the City beginning in 2022, and will require the restatement of certain balances reported as of December 31, 2021. The effects of this change have not yet been determined and are not reflected in these financial statements.

B. COVID-19 Pandemic

The COVID-19 pandemic has had significant financial and operational impacts on the City for the last two fiscal years. Any potential impact it may have on the City's future operations and financial condition cannot be determined at this time and has not been reflected in these financial statements.

Notes to Required Supplementary Information
December 31, 2021

NOTE 1 – LEGAL COMPLIANCE – BUDGETS

The General Fund budget is legally adopted on a basis consistent with accounting principles generally accepted in the United States of America. The legal level of budgetary control is at the fund level. Budgeted appropriations lapse at year-end.

NOTE 2 – PERA – GENERAL EMPLOYEES RETIREMENT FUND

2021 CHANGES IN ACTUARIAL ASSUMPTIONS

- The investment return and single discount rates were changed from 7.50 percent to 6.50 percent, for financial reporting purposes.
- The mortality improvement scale was changed from Scale MP-2019 to Scale MP-2020.

2020 CHANGES IN ACTUARIAL ASSUMPTIONS

- The price inflation assumption was decreased from 2.50 percent to 2.25 percent.
- The payroll growth assumption was decreased from 3.25 percent to 3.00 percent.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25 percent less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years two through five, and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 Table to the Pub-2010 General Mortality Table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 Disabled Annuitant Mortality Table to the Pub-2010 General/Teacher Disabled Annuitant Mortality Table, with adjustments.
- The mortality improvement scale was changed from MP-2018 to MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100.00 percent joint and survivor option changed from 35.00 percent to 45.00 percent. The assumed number of married female new retirees electing the 100.00 percent joint and survivor option changed from 15.00 percent to 30.00 percent. The corresponding number of married new retirees electing the life annuity option was adjusted accordingly.

2020 CHANGES IN PLAN PROVISIONS

- Augmentation for current privatized members was reduced to 2.00 percent for the period July 1, 2020 through December 31, 2023, and zero percent thereafter. Augmentation was eliminated for privatizations occurring after June 30, 2020.

CITY OF ARDEN HILLS

Notes to Required Supplementary Information (continued)
December 31, 2021

NOTE 2 – PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2019 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2017 to MP-2018.

2019 CHANGES IN PLAN PROVISIONS

- The employer supplemental contribution was changed prospectively, decreasing from \$31.0 million to \$21.0 million per year. The state’s special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

2018 CHANGES IN ACTUARIAL ASSUMPTIONS

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed benefit increase was changed from 1.00 percent per year through 2044, and 2.50 percent per year thereafter, to 1.25 percent per year.

2018 CHANGES IN PLAN PROVISIONS

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00 percent to 3.00 percent, beginning July 1, 2018.
- Deferred augmentation was changed to zero percent, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Post-retirement benefit increases were changed from 1.00 percent per year with a provision to increase to 2.50 percent upon attainment of 90.00 percent funding ratio to 50.00 percent of the Social Security Cost of Living Adjustment, not less than 1.00 percent and not more than 1.50 percent, beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

CITY OF ARDEN HILLS

Notes to Required Supplementary Information (continued)
December 31, 2021

NOTE 2 – PERA – GENERAL EMPLOYEES RETIREMENT FUND (CONTINUED)

2017 CHANGES IN ACTUARIAL ASSUMPTIONS

- The Combined Service Annuity (CSA) loads were changed from 0.80 percent for active members and 60.00 percent for vested and nonvested deferred members. The revised CSA loads are now zero percent for active member liability, 15.00 percent for vested deferred member liability, and 3.00 percent for nonvested deferred member liability.
- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year for all years, to 1.00 percent per year through 2044, and 2.50 percent per year thereafter.

2017 CHANGES IN PLAN PROVISIONS

- The state's contribution for the Minneapolis Employees Retirement Fund equals \$16.0 million in 2017 and 2018, and \$6.0 million thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21.0 million to \$31.0 million in calendar years 2019 to 2031. The state's contribution changed from \$16.0 million to \$6.0 million in calendar years 2019 to 2031.

2016 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2035, and 2.50 percent per year thereafter, to 1.00 percent per year for all years.
- The assumed investment return was changed from 7.90 percent to 7.50 percent. The single discount rate changed from 7.90 percent to 7.50 percent.
- Other assumptions were changed pursuant to the experience study June 30, 2015. The assumed future salary increases, payroll growth, and inflation were decreased by 0.25 percent to 3.25 percent for payroll growth, and 2.50 percent for inflation.

2015 CHANGES IN ACTUARIAL ASSUMPTIONS

- The assumed post-retirement benefit increase rate was changed from 1.00 percent per year through 2030, and 2.50 percent per year thereafter, to 1.00 percent per year through 2035, and 2.50 percent per year thereafter.

2015 CHANGES IN PLAN PROVISIONS

- On January 1, 2015, the Minneapolis Employees Retirement Fund was merged into the General Employees Fund, which increased the total pension liability by \$1.1 billion and increased the fiduciary plan net position by \$892.0 million. Upon consolidation, state and employer contributions were revised; the state's contribution of \$6.0 million, which meets the special funding situation definition, was due September 2015.

SUPPLEMENTAL INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds – Special revenue funds are used to account for revenues derived from specific taxes or other earmarked revenue sources. They are usually required by statutes, local ordinance, and/or resolution to finance particular functions, activities, or governments.

Capital Project Funds – Capital project funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

NONMAJOR SPECIAL REVENUE FUNDS

The City had the following nonmajor special revenue funds during the year:

Cable Fund – This fund was established to account for transactions associated with cable television in the City. Revenues are franchise fees from Comcast. Expenditures include the operation of the North Suburban Cable Commission and other costs relating to cable television activity, internet, and other forms of communication.

EDA Operating Fund – The EDA Operating Fund accounts for revenue sources, including tax increments and other sources, that are legally restricted or committed to expenditures for specified purposes (not including major capital projects).

EDA TIF District No. 3 Fund – This fund was established as a Housing District in 1993. The revenue is derived from tax increment and expenditures are for developer reimbursements and administrative expenditures. This tax increment district was decertified in 2019.

EDA TIF District No. 4 Fund – This fund was established as a redevelopment plan for Presbyterian Homes of Arden Hills, Inc. in 2010. The revenue is derived from tax increment and expenditures are for developer reimbursements and administrative expenditures.

EDA TIF District No. 5 Fund – This fund was established in 2019. The revenue is derived from tax increment and expenditures are for economic development and administrative expenditures.

Karth Lake Improvement District Fund – This fund accounts for revenue sources, including taxes, that are restricted to finance capital and other improvements within the Karth Lake Improvement District.

American Rescue Plan Act Fund – This fund was established in 2021. The funding is derived from federal appropriations distributed to the City for lost public sector revenue, investments in water, sewer, broadband infrastructure, and other purposes identified in the act.

NONMAJOR CAPITAL PROJECT FUNDS

The City had the following nonmajor capital project funds during the year:

Equipment, Building, and Replacement Fund – This fund was established for resources designated to be used for the purchase of capital equipment and building repairs.

Parks Fund – This fund was established for park/trail acquisition and development. Revenue for this fund comes from developer park dedication fees, contributions, state grants, and investment interest.

Public Safety Capital Equipment Fund – This fund was established to account for resources designated to be used for the City's share of public safety equipment through contracts with the Lake Johanna Volunteer Fire Department, Inc. and Ramsey County Sheriff's Department.

TCAAP Fund – This fund was established to account for resources designated to be used for the City's share of capital costs related to the approximately 430-acre TCAAP site purchased by Ramsey County.

INTERNAL SERVICE FUNDS

The City had the following internal service funds during the year:

Risk Management Fund – This fund was established to account for the payment of property, liability, and workers’ compensation insurance deductibles, and funds wellness activities for all departments.

Engineering Fund – This fund was established to account for the costs related to engineering services. All costs are compiled in this fund and charged out to the departments based on usage.

Central Garage Fund – This fund was established to account for certain public works department costs related to streets, parks, water, sanitary sewer, and surface water management. All costs are compiled in this fund and charged out to the departments based on usage.

Technology Fund – This fund was established to account for costs related to technology. All costs are compiled in this fund and charged out to the departments based on usage.

STATISTICAL SECTION (UNAUDITED)

STATISTICAL SECTION

(UNAUDITED)

This part of the City's Annual Comprehensive Financial Report (ACFR) presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. This information has not been audited by the independent auditor.

The contents of the statistical section include:

Financial Trends – These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in historical perspective.

Revenue Capacity – These schedules contain information to assist the reader in assessing the City's most significant local revenue source—property taxes.

Debt Capacity – These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information – These tables offer economic and demographic indicators that are commonly used for financial analysis and that can assist the reader in understanding the City's present and ongoing financial status.

Operating Information – These tables contain service and infrastructure indicators that can assist the reader in understanding how the information in the City's ACFR relates to the services the City provides and the activities it performs.

Source – Unless otherwise noted, the information in these tables is derived from the ACFR for the relevant year.

Intermediate School District No. 916	73,470,000	1.71	1,258,939
Metropolitan Council	1,608,917,963	0.35	<u>5,613,422</u>
Total overlapping debt			35,705,305
City of Arden Hills	-	100.00	<u>-</u>
Total direct and overlapping debt			<u><u>\$ 35,705,305</u></u>

(1) The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the county's taxable assessed value that is within the City's boundaries and dividing it by the county's total taxable assessed value.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.

Source: Assessed value data used to estimate applicable percentages provided by the Ramsey County Assessor. Debt outstanding data provided by the county.

N/A – Not Applicable

Note 1: Indicators are not available for the general city functions.

Note 2: Information provided by the Ramsey County Sheriff’s Department. Starting in 2015, the Sheriff changed reporting standards, and information is no longer easily broken down. Total number of calls is now provided.

Note 3: Recyclables – numbers based off of yearly tonnage total divided into 365 days in the year. Starting in 2018, the refuse collected information is no longer being provided as it is not readily available. Instead, information on recycling clean up days is being provided.

Note 4: Fire information provided by Lake Johanna Fire Department, which is contracted out by the City.
