

2024 Annual Report

Ramsey County Sheriff's Office

Minnesota's First Law Enforcement Agency – Established 1849

2024 Annual Report

About the Sheriff's Office

The Ramsey County Sheriff's Office is Minnesota's first law enforcement agency, established in 1849 when Minnesota was only a territory.

The Sheriff's Office

- Has more than 450 employees, including full-time, part-time, and temporary employees, plus over 200 volunteer members.
- Has an annual operating budget of approximately \$57 million.
- Provides wide-ranging law enforcement and public safety services to an urban community of more than 550,000 residents in a metropolitan area of 3.2 million people.
- Serves as a regional partner, providing services to city, county, state, and federal agencies.

Public Safety Services

The Public Safety Services Division maintains a high level of visibility throughout the county. With squad cars responding to calls for service 24 hours a day, boats on the waterways, ATVs patrolling county parks and trails, and volunteers assisting at community events, the Public Safety Services Division is responsible for providing patrol, investigative, waterway, and community services.

Patrol Services

Municipal police departments regularly patrol their own cities. The Sheriff's Office provides similar law enforcement services to seven communities in the county – Arden Hills, Falcon Heights, Little Canada, North Oaks, Shoreview, Vadnais Heights, and White Bear Township – under contract.

Patrol Services responds to calls for service 24 hours a day, such as medicals, alarms, vehicle crashes, motorist assists, and domestic disputes as well as reports of property offenses and fraud. This unit assists citizens and other law enforcement agencies.

While engaging in community policing practices, Patrol Services proactively patrols each contract city to prevent and deter crime, as well as enforce city and county ordinances, and state and federal laws. Initial reports of felony-level offenses are taken by Patrol Services and then forwarded to the Criminal Investigations Unit for further investigation.

State statutes also require an expanded Sheriff's Office role, providing jurisdiction and authority throughout the county. As a result, the Ramsey County Sheriff's Office collaborates with and supports local law enforcement agencies in a variety of ways, programs, and activities.

This report provides a summary review of the 2024 activities of the Patrol Services Unit, using 'call for service' data as generated by the Ramsey County Emergency Communications Center Dispatch and the Sheriff's Office Record Management System.

2024 Calls for Service

2024 CALLS FOR SERVICE BY INCIDENT CODE
CONTRACT COMMUNITIES

2024 Calls for Service

About Calls for Service

Calls for Service (CFS) are issues responded to by deputies that are initiated by citizens via 9-1-1 or deputy initiation while on patrol duties. CFS are not 'crimes' until so determined after investigation of the incident. In 2024 the Patrol Unit recorded 32,476 calls in the seven communities served.

2024 Incident Data

To better align with the National Incident Based Reporting System, incident data has been categorized within their respective NIBRS categories which provides for better reporting with less interpretation. The underlying Incident codes have not changed although several new Incident Codes have been added to reflect the ever-changing nature of 911 calls and crime. The following summarizes the descriptive classifications and changes.

- Crimes Against Persons Calls – Remains the same. These calls involve bodily harm, the threat of bodily harm, or other actions committed against the will of the individual.
- Crimes Against Property Calls: Remains the same. These calls involve property belonging to another being taken or destroyed without that person's consent.
- Crimes Against Society Calls: Previously Quality of Life. These calls involve acts of physical disorder or disruptions of community life where no direct victim other than society at large is involved.
- Traffic Calls: Remains largely the same. These calls involve the operation of motor vehicles.

- Traffic Calls Continued: While traffic incidents will generally be assigned the TRF incident code by Dispatch, there may be underlying crimes arising from that call for service. In those cases, the underlying crime or offense will be assigned the corresponding NIBRS code which also determines the descriptive classification (Crime Against Person, Property or Society), and whether the offense is a Group A or Group B crime as described later in this report.

- Other/Miscellaneous Calls. Removed as a separate classification. Includes those calls for service which don't meet the other descriptions. Examples of this call for service type would be assisting on medical calls, assisting fire agencies, assisting other law enforcement agencies, responding to alarm calls, and conducting welfare checks. While these calls have been removed as a separate classification, they are still reflected in the CFS data and are provided by Incident Code. The underlying activity and law enforcement response have been assigned the NIBRS 999 code allowing reporting on both the unique Incident Code as well as NIBRS activity type.

Calls for service data in this report represented from previous years may not match to numbers from that year's report. This is a result of ongoing changes in the FBI classification of crime data, and the reclassification of calls for service incident codes.

Group A and B Crime Data

2023 CASES REPORTED TO THE MINNESOTA BCA AND FBI
CRIME REPORTING SYSTEM

Crime Reporting Basics

About the National Incident Based Reporting System

The National Incident Based Reporting System or “NIBRS” fully replaced the Uniform Crime Reporting System or “UCR” in 2021. Ramsey County migrated to NIBRS early under a Federal grant and began production NIBRS reporting in July of 2018, a full two and 2 ½ years ahead of the National deadline. The primary difference between NIBRS and UCR is that NIBRS captures detailed information about 51 distinct types of crime and up to 10 offenses occurring within any reported incident. It also captures detailed information about offenders, victims, relationships, and property and evidence related to the incident.

The Sheriff's Office

- Submits all Group A and Group B crime reported or known to the Department as well as general law enforcement activity to the Minnesota BCA and FBI monthly through the Report Management System as required by statute.
- Reports all Bias/Hate crime as part of any Group A or Group B submission.
- Reports all incidents involving Vehicle Pursuits, Use Of Force, Firearms Discharge, Warrants and UAV (Drone) deployments to NIBRS as well as the Minnesota BCA's Supplemental Reporting System (SRS).

Public Safety Services

The Public Safety Services Division houses a centralized Records Unit which assures all incident reports meet NIBRS reporting standards prior to publishing them to the Crime Reporting System.

Group A Crime Category

Group A crime consists of 24 Group A offense categories comprised of 51 Group A Offenses. These are broken down into 3 divisions: Crimes Against Persons, Crimes Against Property and Crimes Against Society. Offenses are designated as Group A based upon the seriousness or significance of the offense, the frequency or volume of its occurrence, the prevalence of the offense nationwide, and the probability of the offense being brought to law enforcement's attention. All Group A crimes are reported to the Minnesota BCA and FBI regardless of outcome.

Group B Crime Category

Group B crime consists of 9 Group B offense categories plus 2 special categories broken down into 3 divisions: Crimes Against Persons, Crimes Against Property and Crimes Against Society. Group B crimes such as disorderly conduct, liquor law violations, and local ordinance violations are less serious in nature than Group A crimes. Special Categories: 90I and 90Z. 90I - Juvenile Runaway is no longer considered a crime at the State or Federal level but is still reported to the Minnesota BCA and tracked under Group B. 90Z – All Other Offenses consists of offenses that may fall into Crime Against Persons, Property, Society, or multiple divisions as part of the same offense and incident and are not easily categorized. All Group B crime is reported to the Minnesota BCA, but only Group B crimes involving an arrest are reported to the FBI.

2024 Changes: Additional Group A crime rate comparisons have been added to the Annual Report.

NOTES:

NIBRS Incident Reporting Classifications:

All Other Offenses may fall into any one or more of the three classifications but are not categorized. 90Z totals include all Calls For Service inside and outside the Contract Cities
